# Who we are

- The LNNM is a health focused charity that works to improve health care for all patients experiencing exclusion by providing a forum for the sharing of best practice, skills, and knowledge, and supporting staff working in this area.
- Part of this work has been the development of inclusion health as a distinct, recognised speciality, and lobbying for increased senior leadership
- The network includes a wide range of health care providers and non-clinical support workers, as well as nurses, midwives and health visitors
- We hold regular networking meetings, and we work to influence policy at a local and national level. We put on events and publish guidance and other documents. We hold a yearly conference.
